

OPENCLAW SETUP PROCESS

Openclaw setup

1.Create a virtual Private Server eg Digital Ocean

2.SSH to the server with root access

```
ssh root@IP4 Address
```

3.Press Ctrl + C to kill the active running script so it will push you to the standard root shell

```
Select a provider (1-6): ^Croot@kenyan-wall-street-ai-agent:~# |
```

4.Create a swap memory to use incase it runs out of RAM

```
fallocate -l 2G /swapfile
chmod 600 /swapfile
mkswap /swapfile
swapon /swapfile
echo '/swapfile none swap sw 0 0' >> /etc/fstab
```

5.Install latest version of Openclaw

```
sudo npm install -g openclaw@latest
```

6.Openclaw onboard command

```
sudo -iu openclaw openclaw onboard
```

```
root@kenyan-wall-street-ai-agent:~# sudo -iu openclaw openclaw onboard
OpenClaw 2026.6.6 (8c802aa) - Open source means you can see exactly how I judge your config.
11:50:41 [state-migrations] Auto-migrated legacy state:
- Archived task registry sidecar legacy source → /home/openclaw/.openclaw/tasks/runs.sqlite.migrated
Doctor changes
- Archived task registry sidecar legacy source →
  /home/openclaw/.openclaw/tasks/runs.sqlite.migrated
```

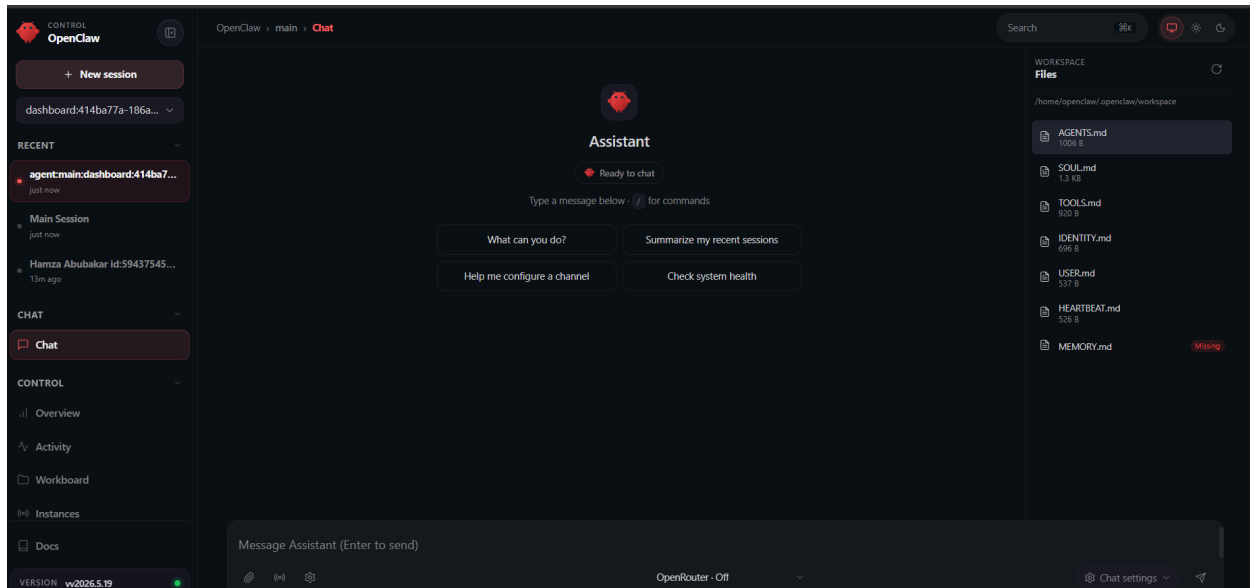

7.SetUP your configuration by following the process

8. Paste the Dashboard URL on your browser (Provided after the SSH Authentication on your CMD)

```
*** System restart required ***  
*****  
  
Welcome to OpenClaw - Your Personal AI Assistant  
  
OpenClaw is a personal AI assistant you run on your own devices. It answers you  
on the channels you already use (WhatsApp, Telegram, Slack, Discord, and more).  
  
🌐 Control UI & Gateway Access:  
Dashboard URL: https://159.89.11.190  
(Use this URL in the browser – it must match gateway.controlUi.allowedOrigins.)  
(Paste token in dashboard settings if prompted)  
Gateway Token: [REDACTED]  
  
First login: Control UI pairing runs automatically (or: sudo /opt/openclaw-control-ui-pairing.sh)  
Stuck on "pairing required"? sudo /opt/openclaw-approve-ui-pairing.sh
```

9:Input your Gateway Token:

10.Openclaw Control UI:

11.Update Your Agents SOUL.md and the AGENTS.md

SOUL .md

Who the agent is.

Defines:

- Identity
- Mission
- Values
- Tone
- Principles
- Decision-making philosophy

AGENTS .md

How the agent system is organized and behaves.

Defines:

- Available agents
- Responsibilities of each agent
- Delegation rules

- Collaboration patterns
- High-level operating instructions
